

# Basic Ortho-SUV Frame Course

We are pleased to announce a software assisted, limb deformity correction course based on Ortho-SUV Frame at JIPMER, Puducherry, on 14<sup>th</sup> January, 2019.

The lead faculty will be Prof. Leonid Solomin from St. Petersburg, Russia.

The course will include hands on workshops on bone models for the correction of various types of lower Limb deformities.

"Ortho-SUV Frame" is a Computer Assisted Six Axis External Fixator Device, which is extremely useful for Precise Fracture Reduction & Single Stage correction of complex limb deformities. Ortho-SUV Frame is patented in Russia & we have acquired exclusive manufacturing & worldwide marketing rights for this wonderful product.

In case you wish to have any further information about the course you can contact Mr. Dilip Joshi; Mobile No. +91 9764449943; email: [dilip.joshi@pitkar.net](mailto:dilip.joshi@pitkar.net)

This course is being organised in line with our company's philosophy that medical education should be propagated in all the areas, for the benefit of mankind.
