03/05/2018

Dear Madam/Sir,

DBT workshop on Genome Engineering is being conducted at Indian Institute of Science, Bangalore between June 24- 29, 2018.

The Department of Biotechnology (DBT), India, has embarked on bringing the potential benefits posed by the applications of gene editing technologies to the attention of Indian academic scientists, researchers, and medical professionals. The 2018 DBT workshop on genome engineering aims to provide hands-on training in genome editing to academic & industrial researchers, medical professionals, graduate students, and post-doctoral fellows.

Attached is the poster for the workshop. The website is: <http://genomeng2018.com/>.

Kindly exhibit the poster on your Notice board.

Conveners:

D. N. Rao, Professor, Dept. of Biochemistry, Indian Institute of Science, Bangalore, India

Sivaprakash Ramalingam, Senior Scientist, CSIR-IGIB, New Delhi, India

Srinivasan Chandrasegaran, US Fulbright Scholar, in Residence, Indian Institute of Science, Bangalore, Professor, Johns Hopkins School Public Health, USA.
