This is to inform you that there will be Video Conferencing (CGR) Session will be held.

Date/Time : 12/05/2018 (Saturday) at 8:00 to 9:00 am

Topic : “Widening Horizons’ With an Eclectic Mix of Challenging Cases”

Summary : Preamble: The uniqueness of Pediatric Surgery lies in its versatility and rewarding outcomes. We decided to take this year’s CGR as an opportunity to objectively reflect upon our journey & milestones reached with respect to our clinical & academic activities. The dept. of Pediatric Surgery today performs a rich & challenging spectrum of clinical work pertaining to all sub-specialties of Pediatric surgery namely: GI and hepato-biliary surgery, neonatal surgery, oncosurgery, urology, neurosurgery, endoscopic surgery and thoracic surgery. We shall present the volume & spectrum of work performed in each of these sub-specialties with emphasis on our thrust areas. Supplementing the data, we have selected meaningful case capsules representing each sub specialty of pediatric surgery wherein each case presented a diagnostic and a management challenge, the management entailed a multi-specialty team approach and carries a take home message for a diverse audience.
